

Erasmus+

The Erasmus+ Programme was introduced with the aim of supporting Programme Countries (EU Member countries expanded with Iceland, Liechtenstein, Norway, Turkey and the former Yugoslav Republic of Macedonia) to efficiently use the potential of talent and social assets available in Europe. Through the Erasmus+ Programme, lifelong learning is subserved by supporting formal, non-formal and informal learning in the fields of education, training and youth.

The Erasmus+ Programme enhances opportunities for cooperation and mobility with Partner Countries (from all over the world, classified in groups from Region 1 to Region 13), notably in the fields of higher education and youth.

The Erasmus+ Programme supports actions, cooperation and tools as an investment in knowledge, skills and competences that benefit individuals, institutions, organisations and society.
