### Description of Lelle Project

LELLE (Let's Learn how to Learn) is an Erasmus+ project which envisions to equip and to empower Higher Education Institution (HEI) graduates with the necessary skills for the 21st century workforce. Project partners stem from five countries, namely, the Europa Consortium Regional Development Non-profit Ltd. (ECN), Hungary; University of Pannonia (UP), Hungary; Open University of the Netherlands (OUNL), Netherlands, Institut für berufsbezogene Weiterbildung und Personaltraining GmbH (BEST), Austria and Wrocław University of Economics (WUE), Poland.

#### **Overall Goal and Main Objective(s):**

LELLE embraces a long-term vision to equip the graduates with core life-skills making them marketable and mobile for the labour force. The overarching goal of LELLE is to address the skill-deficit in our current graduates and to foster the learning to learn culture; making them competitive and resilient in the 21st century.

LELLE's project trajectory is best defined by its three main objectives:

1. Identify gap in HEI programmes and the much sought-after skills in the labour force, i.e., critical thinking, problem-solving and managing one's own learning process
2. Capture best practices of educational and non-educational institutions for integration of the three core skills: critical thinking, problem solving and managing one's own learning process, into the existing higher education (HE) curricula
3. Create a LELLE kit consisting of a ready-to-use curriculum with learning scenarios including methods to develop and evaluate the three core skills
